Summary

Full-Stack Developer with a strong foundation in Python, JavaScript, Java Core and SQL. Hands on experience building dynamic web applications using React, Node.js, and Express, Php (Laravel). Committed to writing clean, maintainable code and delivering seamless user experiences. Eager to contribute to a professional development team as an intern.

Skills

Programming & Querying: Python, Javascript, SQL, Java

Frontend: NextJS, React, JQuery, TailwindCSS, Bootstrap

Backend: Node.js, Express.js, Php(Laravel)

Database: MySQL, MongoDB

Experience

Full Stack Intern (Social Cults)

Jan 2026 – Present

SwissGain (MERN Stack Project)

- Developed responsive and scalable frontend interfaces using React.js, focusing on clean UI/UX and performance.
- Built and integrated backend services using Node.js and Express.js.
- Designed and managed application data using MongoDB, ensuring efficient data modeling and API performance.
- Implemented end-to-end features, API integrations, and handled state management across the application.
- Collaborated on debugging, optimization, and improving overall application stability.

CRM System (Laravel Project)

- Worked extensively on backend development using PHP (Laravel framework) following MVC architecture.
- Designed and optimized relational databases using MySQL, including migrations, relationships, and indexing.
- Implemented role-based access control, CRUD operations, and business logic for CRM workflows.

Projects

Contexto : Real Time Contextual Language Learning App

- Contexto is a next-generation, AI-powered language learning platform designed to bridge the gap between beginner vocabulary flashcards and real-world spontaneous fluency.
- **Native-browser TTS System:** Integrated window.speechSynthesis API directly into the frontend to provide immediate, localized audio feedback without relying on expensive, high-latency external audio generation APIs.
- **AI Integration:** @google/generative-ai SDK (Gemini 2.5 Flash API) serving as the core dynamic roleplay engine, generating personas, localized contexts, and post-interaction actionable analytics.
- **Tech Stack :** React, Javascript, Nodejs, MongoDB, Google's SDK

Education

Masters of Computer Application
AKTU University,

2024 - 2026
CGPA: 7.9 / 10

Awards & Certifications

- Web Development: Incapp Institute
